

**Amendments to the Drawings:**

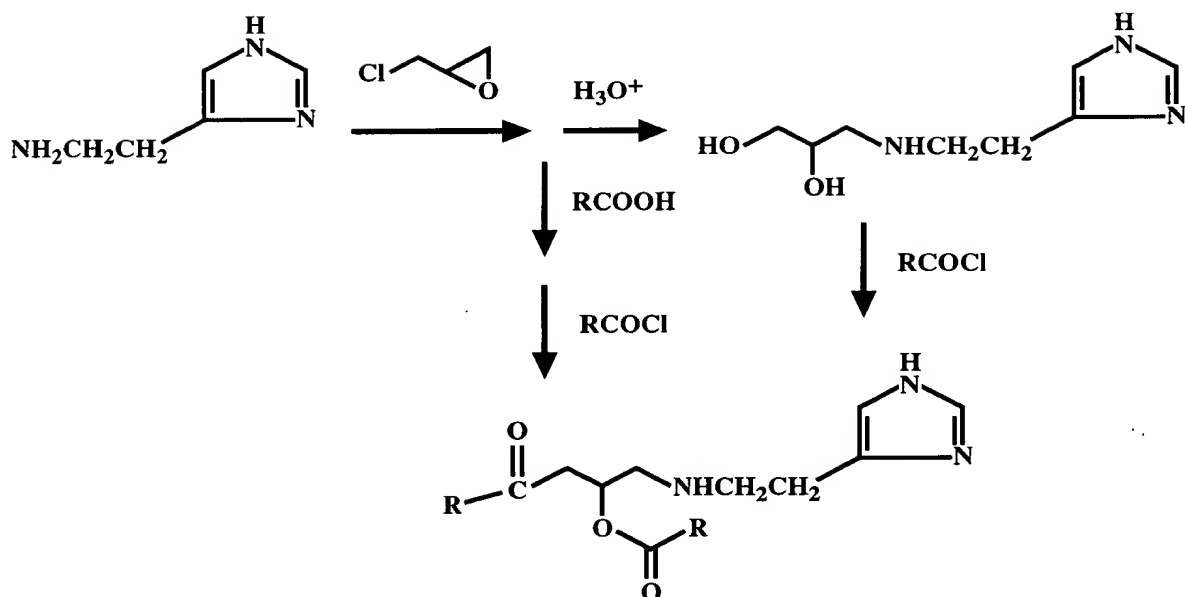

Enclosed herewith are amended versions of Figures 2A, 2C, 2D, and 3D. In accordance with the Office's revised format, these drawing sheets have been labeled "Replacement Sheet."

In Fig. 2A, a typographical error in the final product structure where "R-O=O" is shown has been corrected to "R-C=O".

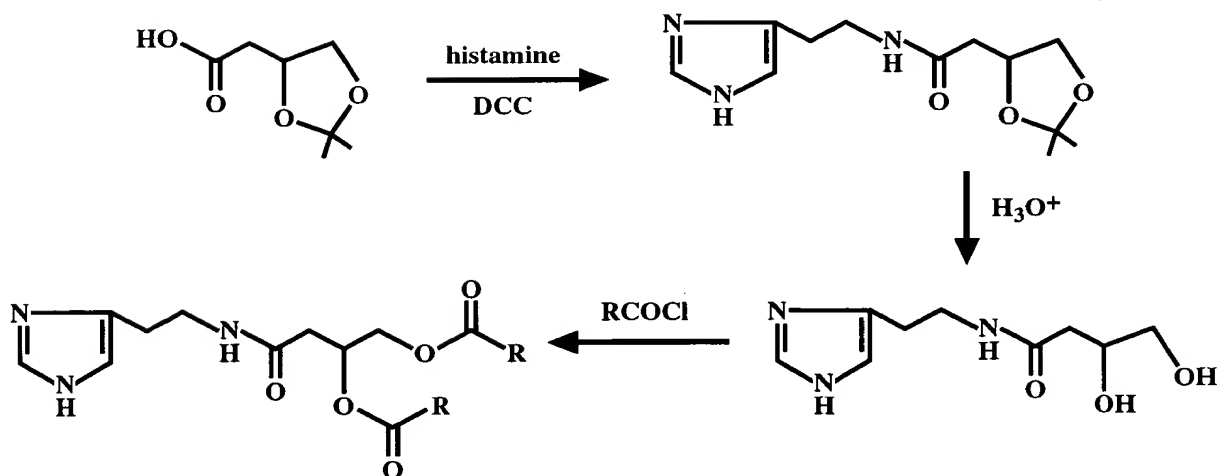

In Fig. 2C, a CH<sub>2</sub> moiety has been inserted between the NH and C-O linkage in the final product, consistent with the preceding structure prior to reaction with the lipid and H<sub>2</sub>/Pd-C.

Fig. 2D is amended to show the reaction proceeds upon addition of H<sub>2</sub>/Pd-C; DMAP/DCC are not required for this reaction.

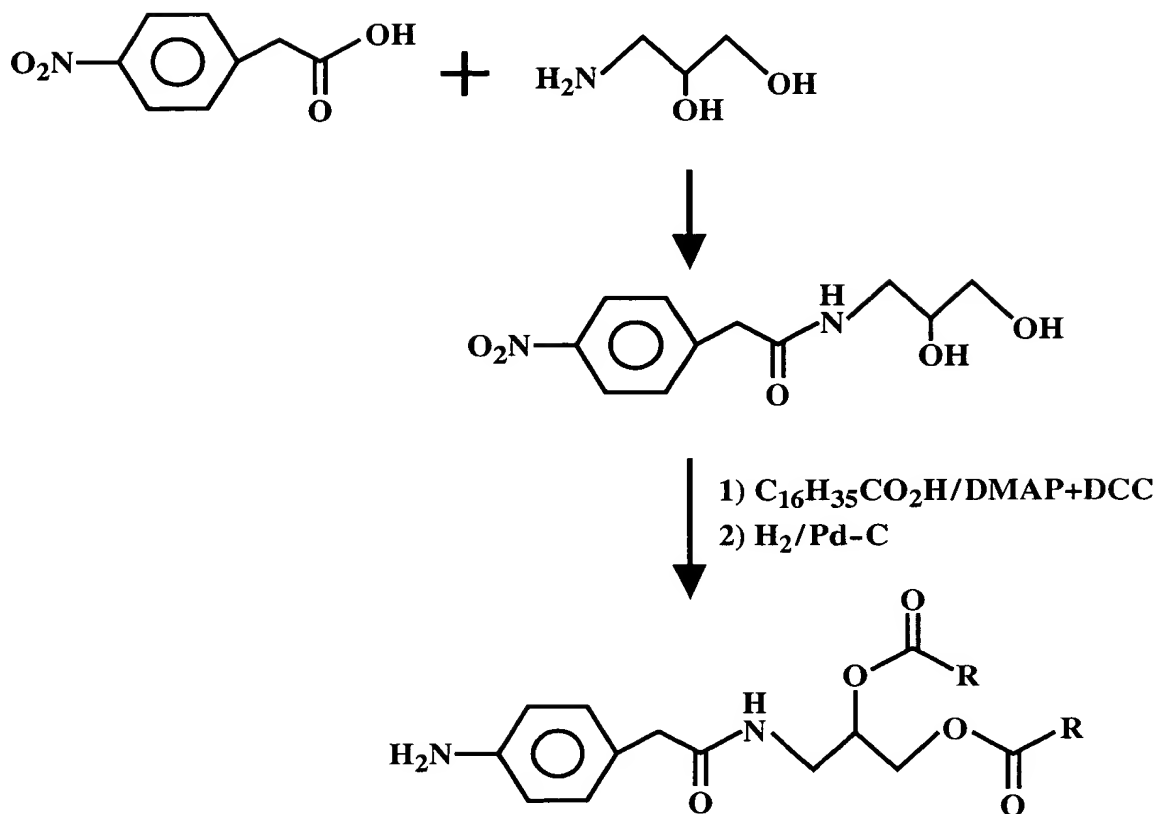

In Fig. 3D, a carbon in the aminosugar that was omitted has been added.
